Our Tutors (8 writing & 7 math tutors, 3 economics & 2 accounting tutors)

Writing Services for Students

- Afford students the opportunity to receive constructive and supportive input from a peer
- Improve the readability of student writing
- Make students aware of persistent issues in their writing
- Help students to understand prompts for written work
- Help students to develop and deepen ideas for written work
- Help students to understand citation conventions & otherwise support academic integrity
- Face-to-face and online (evening) sessions available

Math, Economics, and Accounting Services for Students

- Help students understand difficult concepts
- Fill in the gaps in student knowledge
- Address missing elements in foundational knowledge
- Share enthusiasm for the subject

Benefits to Teachers

- Raise the general quality of work produced for classes
- Enable teachers to address more advanced topics in courses
- Support weaker students and further strengthen strong students
- Professional development workshops for faculty and staff
- Collaborate across departments to support writing in the disciplines
- Assist professors teaching senior thesis by hosting workshops for seniors
- Decrease plagiarism by making students more confident in their writing
